The global pandemic continues to wreck havoc in countries in Africa, the Middle East and South Asia as governments enforce lockdown to slow the spread of the virus. The people who are very poor and living hand-to-mouth on a day-to-day basis, are hardest hit. Unable to work and feed their families, they are in a desperate situation.

It is crucial that we who are able to give and to share, provide support to trusted agencies like Canadian Foodgrains Bank in order that these people can eat and remain home and safe during lockdown..
