

CLEAN WATER

BECOME AWARE:

- Currently women and girls often have to walk several kilometers twice daily to fetch water. The water they collect is from open ponds or open holes in the ground. The water is not clean and results in water-borne diseases.
- Help us provide clean drinking water (wells), accompanied by training in caring for their wells and water supply, in sanitation and in hygiene.

DONATE:

Send a cheque payable to "the Church of the Nazarene Canada" to the National Office, 3657 Ponytrail Dr. Mississauga ON L4X 1W5

- Or on our website www.ncmcanada.ca
- Or phone 1-888-808-7490 or 905-602-8220 Ext.2
- Or by E-transfer to churchofthenazareneCanada@gmail.com
Specify: Water, Wells

COUNTRIES:

Kenya, Africa - WASH project (Water, Sanitation, Hygiene)

Malawi, Africa – Wells for villages

Bangladesh – Wells and water purification systems.

“

Water is essential for health and for life itself. In caring for our water supply, we 'Care for Creation'.
