

CARE FOR CREATION

NAZARENE COMPASSIONATE MINISTRIES CANADA

God cares for creation and has charged humankind with the stewardship of His created world. God cares for His creation and therefore we as Christians and the Church ought to care for His creation. *Genesis 1:26-28*

God's mission is the redemption of all of creation including the created world. This therefore is our mission and the mission of the Church. *Romans 8:19-23a*

Every generation has a role to play in caring for God's creation and this is grounded in the first and second commandments. Caring for creation is one way we love God and love for our neighbour. *John 3:16, 1 Corinthians 3:22*

When we abuse our world, we all suffer the consequences, but particularly those who are poorest and most vulnerable. *Manual, Church of the Nazarene Section 924.*

Everyone is our neighbour whom we are commanded to love. We are to help them thrive and become all that God has designed for them to be. *Luke 10:25-37*

Our actions prove our love for God and love for neighbour. We can accomplish more together. *1 Peter 1:21-22*

CARE FOR CREATION

As a ministry of the Church of the Nazarene, we work for the transformation of individuals, families, and communities (our neighbours) such that they thrive and become all that God has designed for them to be. Below are two aspects of creation care that Canadian Nazarenes have identified as particularly important:

Food / Food Security

Ensuring that everyone has enough to eat. We work with the hungry to help them to produce or access enough food year-round so that they become food self-sufficient.

Water / Clean Drinking Water

Ensuring that everyone has access to clean drinking water. We support NCM International Water, Health, and Sanitation projects in Africa and the installation of tube wells in Bangladesh.

**It's time to
take action!**
